About Us

Coding Guru

All Coding Courses in one Place.....

Computer Basics

It is course made for exclusively Bigginers we will teach you basics of computer with Certificate.

Price : 899 Rs

 **Buy Now**

Content of Course :

- Notepad
- Wordpad
- Paint
- MS Word
- MS Excel
- Mailing
- Nudi
- MS Power Paint

Coding Guru

All Coding Courses in one Place.....

Order Name : Computer Basics

Rate : 737.18 RS

GST : 161.82 RS

Total Price : 899.00 RS

Python Programming

Python is a popular programming language. It was created by Guido van Rossum, and released in 1991.

Python Programming Language

Python is a high-level, general-purpose and a very popular programming language. Python programming language (latest Python 3) is being used in web development, Machine Learning applications, along with all cutting edge technology in Software Industry. Python Programming Language is very well suited for Beginners, also for experienced programmers with other programming languages like C++ and Java.

This specially designed Python tutorial will help you learn Python Programming Language in most efficient way, with the topics from basics to advanced (like Web-scraping, Django, Deep-Learning, etc.) with examples.

Below are some facts about Python Programming Language:

 Python

- [Working with Missing Data in Pandas](#)
- [Python | Pandas Series](#)
- [Data analysis using Pandas](#)
- [Read csv using pandas.read_csv\(\)](#)

Machine Learning with Python

- [Machine Learning Tutorial](#)
- [Linear Regression](#)
- [Understanding Logistic Regression](#)
- [K means Clustering](#)
- [Python | Image Classification using keras](#)
- [creating a simple machine learning model](#)
- [Python | Implementation of Movie Recommender System](#)

MERN Stack

This tutorial is all about the MERN stack. We'll outline the basics of the MERN stack and demonstrate how to use it by developing a simple CRUD application from scratch.

What is the MERN stack?

The phrase MERN stack refers to the following technologies:

MongoDB, a cross-platform document-oriented database program

Express.js, a web application framework for Node.js

React, a JavaScript library for building user interfaces

Node.js, an open-source, cross-platform JavaScript run-time environment that executes JavaScript code outside of a browser

If you're a visual learner (and have some time on your hands), check out this comprehensive, up-to-date MERN stack video tutorial:

Server setup with Express.js and Node.js

To begin our MERN stack tutorial, we'll show you how to set up a server with Express.js and Node.js.

npm package initialization

To create a project folder, enter the folder through the terminal, then run the following command:

```
$ npm init
```

Now it will ask you some questions about package name, version, entry point, etc. Hit enter if you want to keep the default.
